Environmental Zone

Most of Cologne's metropolitan area is a low emission zone, into which only vehicles sporting one of the stickers for emission group 4 (green sticker) are allowed to enter since July 2014. The Koelnmesse exhibition center is, however, accessible for all types of vehicles, even if they do not bear one of the aforementioned stickers. You will find directions on how to reach the site without a sticker at map of low emission zone.

Due to a general disposition of the Cologne Police Authority trucks over 30 tons gross vehicle weight without a sticker for the environmental restriction zones are allowed access to Koelnmesse also via the environmental zones. This applies only to the official route deviations. Please find more information here:
